WAR.

"JOHNNY, GET YOUR GUN."

The Army Ordered to Mobilize at
Chickamauga, New Orleans,
Tampa and Mobile.

THIRTY-THREE REGIMENTS,

Including Cavalry, Light Artillery
and Infantry in the Move.

PREPARING TO MEET SPANISH.

Gen. Nelson A. Miles First in Com-
mand, With Headquarters
at Atlanta, Ga.

Troops Being Mobilized.

WASHINGTON, April 15.—Decidedly
most warlike step taken by the de-
partment in preparing for the possibility
of an encounter with Spain was inaugu-
rated late today, when orders were issued
for the concentration at four points in
the south of six regiments of cavalry,
21 regiments of infantry and the light
batteries of five regiments of artillery;
at New Orleans eight regiments of infantry,
at Tampa seven regiments of infantry
and at Mobile seven regiments of
infantry.

Since the civil war no such proportion
of the army has been mobilized, and the
movement itself is the best evidence of
the gravity of the situation.

Orders as finally given contemplate
the movement of troops to places indi-
cated, as follows:

To Chickamauga Battlefield—The
First, Second, Third, Sixth, Ninth and
Tenth regiments of cavalry and the light
batteries of five regiments of artillery.

To New Orleans—The First, Seventh,
Eighth, Twelfth, Sixteenth, Eighteenth,
Twenty-third and Twenty-fourth regi-
ments of infantry.

To Mobile—The Second, Third, Tenth,
Eleventh, Nineteenth, Twentieth and
Twenty-second regiments of infantry.

To Tampa—The Fourth, Fifth, Sixth,
Ninth, Thirteenth, Seventeenth and
Twenty-fourth regiments of infantry.

The heavy batteries of artillery in each
of the five regiments mentioned will
remain at their present posts.

The command of the army will devolve
upon Major General Nelson A. Miles,
who is now at the head of the military.
His tomorrow headquarters will proba-
bly be at Atlanta. Permanent headquar-
ters will depend entirely upon exigencies
of the situation and developments of the
campaign. He will leave this city soon
for his new duties.

The Government Buys Five Cruisers.

WASHINGTON, April 15.—The Navy
department today decided to assign the
naval reserves of New York, New Jersey,
Massachusetts, Maryland and Michigan
to the five auxiliary cruisers recently
purchased.

The navy acquired today, either by
purchase or charter, the Yorktown, St.
Louis, St. Paul, Paris and New York.

Negotiations for the Chilean cruiser,
O'Higgins, regarded as one of the most
formidable of her class afloat are pend-
ing, with the probability of purchase,
and several torpedo boats may be bought
of Argentina.

Will Ask Spain to "Knock the Chip Off."

New York, April 15.—A special to
The World today from Washington says:
The president's present intention is to
give his act of war in taking possession
of Cuba a humanitarian aspect. He
proposes to send merchant vessels loaded
with medicines and food and clothing
for the starving Cubans to Havana and
Matanzas. These vessels will be accom-
panied by a fleet of 20 warships and by
transports carrying regular United States
troops. They will land peaceably and
take possession of the fortified towns
unless Spain fires on them.

If Spain fires the first shot the battle-
ships Indiana and Iowa and the monitors
Triton, Terror and Amphitrite will begin
the bombardment of Havana with their
24 and 13-inch guns. How long the two
century old fortifications of Havana,
with their 17th century muzzle-loading

cannon, will stand against the 68-ton
guns of Capt. Sampson's fleet is an inter-
esting question. The bombardment is
not likely to last longer than the bom-
bardment of Alexandria by the British
fleet in 1883—about four hours.

Then the only thing that will remain
will be for the United States torpedo
boats to clear Havana Harbor of the
submarine mines and the United States
will be in possession of the capitol of
Havana.

FT. SHERMAN, IDAHO, April 17.—Two
companies of the Sixteenth infantry at
Ft. Spokane are to join the five com-
panies from Ft. Sherman at the city of
Spokane not later than Tuesday, and it
is the opinion of Colonel Theaker that
his command will leave here Tuesday
morning.

ST. PAUL, MINN., April 17.—At the
headquarters of the Department of
Dakota it was stated today that the eight
companies of the Third regiment of in-
fantry at Ft. Snelling would leave for
the south on Tuesday next. There are
520 men and officers in the regiment.

ATLANTA, GA., April 17.—Company
G, Fifth infantry, Captain Partello, left
Ft. McPherson today for Ft. Barrancas.
General Graham and staff and 3,000
cheering people witnessed the departure.
Four companies leave tomorrow for
Tampa.

On Monday morning while ye scribe
was occupied with the busy cares of the

as sweet music as ever charmed the
human ear, and upon looking to see
what it was and from whence it came
we were sadly disappointed to see noth-
ing except two men going silently down
the road.

on this creek last Wednesday laying him

John Brown two yearling heifers and a
pair of steer calves for \$55.

B. D. Rose bought of H. T. Moore
three fine heifers, and one from Joel
Gevedon; prices unknown.

B. D. Rose has a fine field of clover
and grass, upon which he turned about
40 head of cattle this week.

A Mr. Lacy, from Texas, passed thro'
here on his way home in company with
A. H. Stamper, of Campton.

R. L. Carroll traded a very fine mule
to Dr. Harvey Stamper the other day for
a horse. From what I catch onto, Car-
roll got about \$35 to boot.

There is considerable talk concerning
our candidates for congress in this dis-
trict, and we have heard of several
candidates. But if it were left to Stillwater
there is no doubt but Thomas Y. Fitz-
patrick would be all O. K.

Jeff D. Rose, of this creek, who had a
lot of bacon stolen sometime ago, was
crossing the creek below J. F. Tutt's the
other day and saw a midling of meat
floating down the stream, and stopping
it and examining it, he found it to be
a part of his stolen meat. He searched
the creek further up and found two more
sides in the creek which he recognized.

Joseph Cundiff, of War creek, Breath-
itt county, and Miss Callie Chambers
were married at the residence of the
bride's father last Wednesday evening at
4 o'clock. The bride is one among the
finest ladies on Stillwater creek, and from
what we know about the groom he is not
excelled in Breathitt, so we wish them
much good luck and hope they will
prosper.

Rocky branch, were guests of W. B.
Duff and family one day the past week.

Hon. T. Y. Fitzpatrick is still on gain-
ing grounds over here. The boys in the
trenches realize that he is their friend
and they will rally around his standard.

The Lee City correspondent said that
his town was in the lead for lazy men.
Campton has a man who is too lazy to
bat his eyes, and his wife has to chew
his victuals for him.

"Supple Jack" has accepted a chal-
lenge to fight J. L. Wireman's wildcat,
Saturday the 22d inst., at 1 o'clock p.
m. The fight will take place in the court-
house yard at this place. Everybody is
invited.

Married.—Thursday, the 14th inst.,
at the residence of Dr. W. H. Tutt,
Marion Robinson to Miss Arpie Keith,
Rev. Jonas Campbell officiating. May
their pathway through life be strewn
with flowers.

S. E. Vaughn, so we understand, is a
candidate for matrimonial honors. Sub-
ject to whatever action the ladies may
take in passing upon his claim. We
heard an old grass-widow say that his
election was assured.

We had another shooting match here
last Wednesday night. A. C. Cockerham
shot at Samuel Faulkner. The difficulty
arose over a joke of some kind. Cocker-
ham immediately left the country and
has not been heard of since.

We were indeed sorry to hear of the
death of Warren Farar, of the Herald.
We formed an acquaintance with him
during the last Hazel Green fair, and he
must say that he was as bright a boy as
we ever met. To his relatives and friends
we extend our deepest sympathy. Never
more on earth will you hear his sweet
voice and look into his sparkling eyes.
But you can meet him on the golden
strand of immortality, where the dark-
winged angel of death is unknown. He
is now basking in the radiant sunbeams
of heaven, where the tree of life blooms
forever and the crystal fountain forever
flows from beneath the great white throne
of God. Let us all prepare to meet little
Warren up yonder on high where we will
dance a gay cotillion to the rhythmic throb
of happy hearts.

The war talk has developed more fool-
nonsense over here than anything that has struck
this country for a century. Every mar-
we meet, with tear dimmed eyes, says
"Are you going to the war?" Men, li-
women and children are today in tear-
for fear of the war. I will say right her-
that there is no cause for alarm. On-
organized soldiers will drive the Span-
iards from the Western Hemisphere
without our assistance. No man will b

forced to engage in this war, for there
has already been more volunteers than
will be needed. The stars and stripes will
float in triumph above the smoke of the
cannon. God still reigns and the govern-
ment at Washington still lives. We
would be glad to fight for our country,
but we will not be needed. We will stay
here and fight for the dear old HERALD.

Announcements.

We are authorized to announce JOHN E. GARNER, of Winchester, Clark county, as a candidate for Congress in this (the Tenth) district, subject to the action of the Democratic party.

We are authorized to announce Hon. THOS. Y. FITZPATRICK, of Prestonsburg, Floyd county, as a candidate for re-election to Congress from the Tenth district, subject to the action of the Democratic party.

NOTWITHSTANDING heavy showers just before the time of speaking, a large and intelligent audience assembled at the academy to hear Hon. John E. Garner, of Clark county, give proof of his claims to the nomination for Congress by the Democrats of the Tenth Congressional district. Judging from the rapt attention, frequently punctuated with hearty applause, we must conclude that he established his claims as just and worthy. Echoes of his speech are very favorable to him and we realize that it will be no easy job for any of his opponents to slip up on his "blind side." His speech was, as have been and will be all of his speeches, perfectly free of abuse. When referring to any of his competitors he did so in polite language. He says that he will not place himself in a false position by abusing anyone whom he may afterward be called upon to defend, and this, we think, is creditable to his head and heart. Mr. Garner is heartily in favor of the war because it is a Democratic war in the cause of humanity, but he says that after "Free Cuba" must come "Free Silver," and that it will come so sure as night succeeds the day. We regret that Mr. Garner will not be able to visit us again before the election—should he do so, we will promise him an academy full of people three times in one day. Mr. Garner is a thorough gentleman and will conduct such a canvass as to commend himself to all decent people. And whether nominated or not he will be found squarely in line when we meet the common enemy.

JIM WILLIAMS' new paper, The Pendletonian, published at Falmouth, this week visited our sanctum for the first time. Though only eight weeks old, she has shed her swaddling clothes and is even now dressed as becomes a maiden of sweet sixteen. Her manners, too, are perfect, and her language elegant, polished, polite. Her papa is doubtless quite proud of her, as he should be, and under his precepts she will continue to "grow in grace and beauty." Accept our congratulations, Jim, and may your own shadow never grow less.

OUR young friend, Will Schooler, of the Morehead Advance, has just added a power press to his outfit, and last week celebrated the event by issuing a 16 page 6-column edition. Billy has had his ups and downs in the "City of the Hills," as he calls the home of his adoption, and we are glad to note that he seems now to be on top.

THE exigencies of the case may require an extra session of the Kentucky legislature to provide for the equipment of state troops, and the bare announcement is enough to drive a man to enlist, that he may escape its deliberations.

JIM ALLEN, of the Cynthiana Democrat, in announcing that he will raise a regiment of delinquent subscribers for the Cuban war got ahead of the editor of THE HERALD, who had already listed in a quiet way 400 "invulnerables," of which he hoped to form a battalion and with vanquish the Spanish at one fell swoop. Say, Jim, can't you reduce your regiment to a battalion and let in our 400? They are all one, two and three year men, and no onslaught Spain could make would ruffle them the least bit. The Powers, even, do not possess a gun so powerful, or a projectile so pointed that the person of one of them could be penetrated. We've tried 'em under all sorts of fire—even tried to "soft-soap" 'em, and they went move. Now, we have picked this 400 because they are veterans, and shall claim for them the name "Invulnerable Veterans." You have doubtless got some three, six and nine months' "fellers" in your regiment, and a little palaver, properly applied, might cause raw recruits like them to break ranks at a critical time—pay up, as it were, and then where are you? Having served through one war we know the veteran can be relied upon, and we advise you take only that kind in your regiment. Jim, let us in your command with our 400? Why, man, Spanish bombs and solid shot will be as harmless against our forces as soap bubbles against a brick wall! Cuba libra, and without the loss of a delinquent.

A LETTER from Allen R. Carter, chairman of the executive committee of the State Commercial Convention to be held at Louisville on May 11th and 12th, informs the editor of THE HERALD that he has been selected as a delegate, and we regret very much that we cannot attend. The object of the convention is to promote and develop the commercial, agricultural and manufacturing interests of the state, and a general representation of all these interests is desired.

THE proposed issue of bonds for war purposes, \$500,000,000, is to be, in the extreme sense, a "popular loan," as the bonds are to be in sums of \$50 and multiples of \$50, and all subscriptions of \$1,000 or less be honored in full, any necessary reduction by "scaling down" being applied in cases only of large subscriptions. Thus nearly every citizen may become a bondholder if he wants to.

IN NEED Russia is a friend. Of all the countries on the continent she alone gives Uncle Sam a friendly word. France is bitter, threatening many dire things, and active interference in Spain's behalf is openly advocated in Paris.

It seems that Spain has left Havana to her fate, not sending any ship to her defense. That would indicate that Cuba is already abandoned, and that Spain hopes for prizes and conquests in other quarters.

IT HAS been thought that the Spanish flotilla will not enter Cuban waters at all, but will confine her movements to preying upon American ships of commerce and unprotected cities along the Atlantic sea coast.

THE Mt. Sterling Gazette, baring politics, has always been a good paper, and since it changed to a semi-weekly it is even better than before. John Wood "a pintedly" knows how.

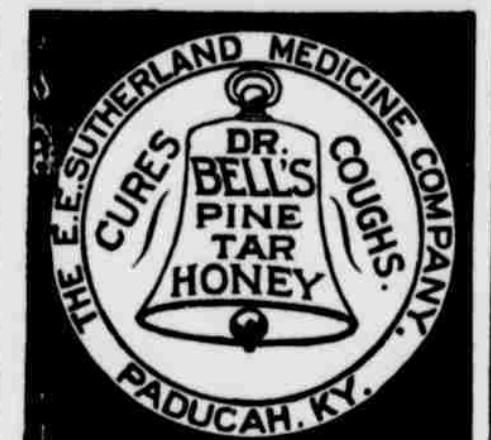

WAR is on in earnest, and even we of remote districts may know more about it than we desire before it is over.

THE Cuban patriots do not want to join the United States forces and fight under our flag and command, but want to continue in their own way. However, little difficulty is anticipated in getting them to submit.

THE action of Spain is very peculiar and our military people are at sea as to what will be her tactics. She talks fight red hot, but has made no effort to get to the fighting grounds.

ACCORDING to the latest dispatches the Spanish flotilla was still at the Caye Verde Islands, 1,500 miles away. Just what move they were going to make was not made public.

HAVANA is probably in the possession of our troops by this time.

Cow Peas for Stock.

I have shipped 10 bushels of cow peas, of the whippoorwill variety, to Hazel Green, with the hope that the farmers of that section will avail themselves of an opportunity to get a start of the best forage crop known to agriculture. You can get a limited supply of this seed from Morton Swango at cost. The government is sending out some packages of this seed, and in order that the progressive farmers may know more of this crop I shall give THE HERALD readers the benefit of my observations. There are dozens of varieties of cow peas, but I have selected the whippoorwill variety with the belief that it is the best kind for the soils in the mountains. Then again this is the best for hay. It stands erect, often yields 25 bushels of seed per acre, and has a good growth of vine. Its chief use, however, is to restore worn out lands to their former fertility. Experiment stations in 20 or more states give it out that peas as a fertilizer are the best known, with the possible exception of soja beans. One station says, "the cow pea is one of the new crops that leaves the soil in an improved condition." A bluegrass farmer, now living in this state, told me that pea hay was the finest feed he had ever known, and that his mules kept fat on that alone. His method of cultivation is about as follows:

First break the land and harrow it well. Then if seed is cheap and labor scarce sow broadcast, one to two bushels to the acre. If the land is well prepared it will need no further cultivation. If seed is high and labor cheap, it will be better to plant in rows like corn and plow it shallow, two or three times. The yield will be better and the crop more valuable, though it will be more expensive. They should be mown before they get ripe, if desired for hay. In that event a second crop will come from the stubble and afford good pasture. They are often sown between the rows of corn when the latter is being "laid by." This is a good method of sowing to save seed. They can be put in the ground any time from April to July with good results.

The Mississippi station says, "the best time to cut peas for hay is when the first pods begin to ripen. When cut at that stage it cures more easily and makes stronger feed. The hay is harder to cure than clover and should be placed in an open shed or in a place well ventilated."

An Illinois farmer, now living in this county, says he never saw a place too poor nor too dry for peas. They have enormous roots, which store up nitrogen in greater quantities than any other crop, clover not excepted, and nitrogen is to the plant what oxygen is to the animal kingdom. I hope the farmers round about Hazel Green will experiment with the pea, and I am satisfied that if they do they will pronounce it a great success. If you desire further information, address the Bureau of Agriculture, Washington, D. C. Every farmer should be a subscriber of a good paper. By clubbing with THE HERALD you can get them at half price, and farmers that want to keep up with the times can not do without a farm paper any more than a doctor or lawyer can do without a library. The Home and Farm, published at Louisville is a great paper, and I commend it to the farmers of the mountains. J. H. SWANGO, Memphis, Tenn., April 23.

Nelson's Hawaiian Hair Elixer.

This is to certify that we handled Nelson's Hawaiian Hair Elixer for ten months, and can truthfully say that the sale of it is phenomenal. We have sold ten times as much of it as of all other hair preparations combined, our sales amounting to over 600 bottles, seven other drug stores in the city handling it at the same time. We consider it by far the best hair preparation on the market.

Respectfully,
WILSON DRUG CO.

Lexington, Ky.

Lee Gordon Company, East Main Street, Lexington, Ky.

My hair commenced two years ago to fall out, and I was nearly bald. After using Nelson's Hair Restorative it has produced a new suit of hair, and has stopped it from falling out. I used two bottles, and find that it will do all that he claims for it.

Mrs. Cleveland's New Photographs.

Mrs. Cleveland recently had a new set of photographs taken, the first time she has been photographed since leaving the White House, and has given them to Mr. Bok, with permission to publish them in THE LADIES' HOME JOURNAL, where they will be publicly seen for the first time. The set also includes the first authoritative photographs published of the new Princeton home of the Cleverlands.

Democracy and Its Future.

Judging the future by the past, I think it safe to say generally that so long as the doctrine of centralization is opposed, and the doctrine of popular sovereignty in the nation and of state supremacy over local affairs is maintained, and so long as the people fight for liberty, for self-government, and for the control of public affairs against sordid special interests, the Democratic party will remain unchanged. In other words, conservatively stated, so long as the principles of Thomas Jefferson are a vital influence in the Republic, the Democratic party will continue to be what it has ever been—the exponent of those principles.

The battles of the future will be substantially along the same lines as those of the past. Against the Democratic party will be arrayed the same powerful influences which opposed it in the last campaign; while its supporters will come from the multitude whose loyal hearts and busy hands make the nation really opulent and great. The declarations of the Chicago platform of 1896, so far as they relate to fundamental questions, will stand as they have stood for a century, as the permanent creed of the party; and, so far as they relate to financial and purely economic questions, they will be repeated and insisted upon from one convention to another until crystallized into legislation, or until eliminated by reason of satisfactory changes in the industrial and economic conditions of the country.

I say this because that platform is a clear, conservative, comprehensive statement of the Democratic position. Every declaration in it is Democratic, made alone in the interests of the common people, and in strict accord with the ancient faith of the party. Moreover the platform has the approval of the people themselves; it is indeed their handiwork; and the politicians would not change it if they could.—Ex-Governor W. J. Stone, of Missouri, in Forum.

Two years ago R. J. Warren, a druggist at Pleasant Brook, N. Y., bought a small supply of Chamberlain's Cough Remedy. He sums up the result as follows: "At that time the goods were unknown in this section; today Chamberlain's Cough Remedy is a household word." It is the same in hundreds of communities. Wherever the good qualities of Chamberlain's Cough Remedy become known the people will have nothing else. For sale by J. T. Day.

Wolfe County Runs Ahead.

M. D. Spencer, formerly of this county but for some years past a citizen of Horton, Kansas, was recently elected city clerk of that town by the very handsome majority of 254 votes. He ran on the Citizens' ticket, in opposition to T. F. Hays, Republican, who polled a total of 285 votes, only 29 votes more than Spencer's majority. Spencer ran over 200 ahead of his party, which would indicate that he has lost none of his old time popularity, and his Wolfe county friends will rejoice to know that he is still true to his Democratic faith.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon the receipt of three 2-cent stamps to cover cost of postage on the bottle. Mention THE HAZEL GREEN HERALD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietor of this paper guarantees the genuineness of this offer.

American Tools Are the Best.

Hermann J. Olsen, a distinguished manufacturer of Norway, is now in the United States to purchase supplies for his plant in his own country. He says that the United States now produces tools superior to those of either Germany or England, and while he expects to have to pay higher prices for them it is the cheapest way in the end. He proposes to purchase in this country a large quantity of supplies for his plant in Norway, certainly a high tribute to American genius and skill.

Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakton, Ky., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for several years, and find it to be the best medicine I ever used for cramps in the stomach and bowels. For sale by J. T. Day, Hazel Green.

A gratifying development in considering the probabilities as to a war loan is the discovery that the United States has more money in circulation today than at any time in its history, the total money in circulation being \$1,756,058,645, or \$246,000,000 more than on July 1, 1896.

Mrs. A. Inveen, residing at 720 Henry street, Alton, Ill., suffered with sciatic rheumatism for over eight months. She doctored for it nearly the whole of this time, using various remedies recommended by friends, and was treated by the physicians, but received no relief. She then used one and a half bottles of Chamberlain's Pain Balm, which effected a complete cure. This is published at her request, as she wants others similarly afflicted to know what cured her.
